Dear Middle/High School Parent or Guardian,

Welcome to the 2015-2016 school year! I hope you had a wonderful summer spent with loved ones and friends. As we look forward to a new school year filled with success and a continued focus on the high achievement of our students, I want to ensure that you are aware of the many programs of choice and acceleration options St. Johns County Schools have to offer. Programs of choice include Career Academies at each of our high schools, advanced academic programs such as International Baccalaureate (IB) and Advanced International Certificate of Education (AICE), St. Johns Virtual School (SJVS), Florida Virtual School (FLVS) and Reserve Officers Training Corps (ROTC).

There is a process to register and/or apply to many of these programs, especially if a student plans to attend a school other than their zoned school. The timelines and requirements can be found on the district website. Parents and students are encouraged to consult with their school guidance counselor when considering a program of choice. More information about Career Academy programs is available at <http://academies.stjohns.k12.fl.us/info/>. It is never too early to talk to your child and plan educational goals.

School and district based communications including scheduled informational meetings, newsletters, automated phone messaging and direct emailing may be used to ensure that students and parents understand their options, deadlines for application, and other vital information needed for academic planning. For most programs the application process will start November 16, 2015 and end January 22, 2016 for the 2016-2017 school year.

Part-time virtual school options are available either during the regular school day or after school and in the summer. The next open enrollment period to apply for SJVS as a full-time student is November 20, 2015 - January 4, 2016, and in the spring, April 12-July 11, 2016, although exceptions can be made for good cause.

After school begins, requests for part-time virtual courses taken within the regular school day will be addressed through the normal drop/add policy of a school with the principal having final authority for all schedule changes. All virtual course requests must be reviewed and approved by a guidance counselor to ensure the course is an appropriate placement for the student. To learn about all virtual options, please go to <http://www.sjvs.stjohns.k12.fl.us> or call 904-547-8080.

Regular high school graduation requirements now include the successful completion of one high school level online course. This course could be taken at any time during the student's academic career as long as the student successfully completes the entire course (year-long or semester) prior to graduation. Many high schools are offering blended courses that meet this requirement. In a blended course, the instruction is at least 50% digital and the remainder through direct teacher instruction. St.

*The St. Johns County School District will inspire good character and a passion for lifelong learning  
in all students, creating educated and caring contributors to the world.*

Johns Virtual School and FLVS courses also meet this requirement.

In addition to programs of choice and virtual courses, all St. Johns County schools offer Academically Challenging Curriculum to Enhance Learning (ACCEL) options, which looks different at each level. Options include but are not limited to:

- Middle – take high school courses in middle school; virtual instruction in a higher grade-level course; ACCEL options do not supersede the core course requirements for promotion to high school (three English language arts, three math, three science, and three social studies) but courses taken in middle school may earn high school credit
- High – earn college credit by completing the coursework and passing the examination for Advanced Placement (AP), Dual Enrollment (DE) or IB/AICE courses; earn high school credit without taking the course by passing the state End-of-Course (EOC) assessment; virtual instruction in advanced courses; early graduation

Finally, there are also several diploma options with different requirements that are associated with a specific program of choice. Even the standard diploma type has designations that are dependent upon a student's course of study. For example, a student may qualify for the Scholar and/or Merit designation along with their standard diploma depending upon the courses and assessments they completed. Details regarding the criteria for each option can be found at <http://www.stjohns.k12.fl.us/depts/cs/> or accessed through your school counselor.

I am proud that our schools offer so many academic choices for our students. With so many good options to consider, I hope that you will work with your school's guidance department to develop the best customized learning path for your child. Thank you for your consideration of this information and my best wishes to you and your family for an outstanding school year!

Sincerely,

Joseph G. Joyner, Ed.D.
